

# MATERIAL WORLD

GAMIFYING CHAINLINK CCIP

LITE PAPER

*LIVE YOUR BEST LIFE*

# OVERVIEW

Material World is a unique NFT collection designed to gamify the Chainlink CCIP protocol by encouraging the accumulation of material possessions.

The mint of 7,777 characters will happen on Base, but each CCIP NFT's true potential can only be realized by traversing it to other chains. Minters will start with an empty plot of land and move across chains to accumulate the trappings of our material world: clothing, a house, a car, a boat, and an aircraft.

## MATERIAL POSSESSIONS

The Material World CCIP NFT collection will begin on Base, where you will mint your initial CCIP NFT character and give it a name. In addition to a custom name, characters will be able to acquire 5 different types of material possessions, each of which can only be found on its specific chain:

**Name:** Base

**House:** Arbitrum

**Car:** Binance Smart Chain

**Boat:** Polygon

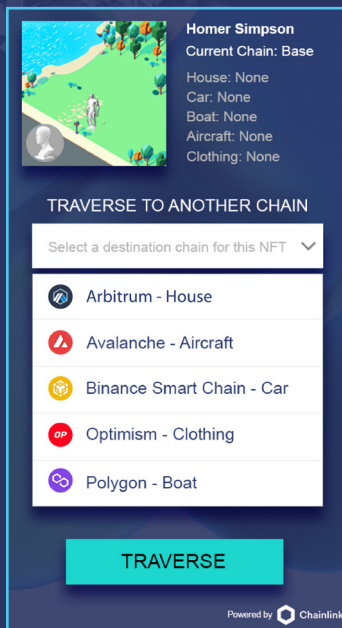

**Aircraft:** Avalanche

**Clothing:** Optimism

Each possession will also vary in terms of quality and rarity, making some attributes more valuable than others. For example, when you go to Arbitrum to get your house, you may receive a cardboard box, a luxury mansion, or something in between.

# CROSS-CHAIN TRAVERSING

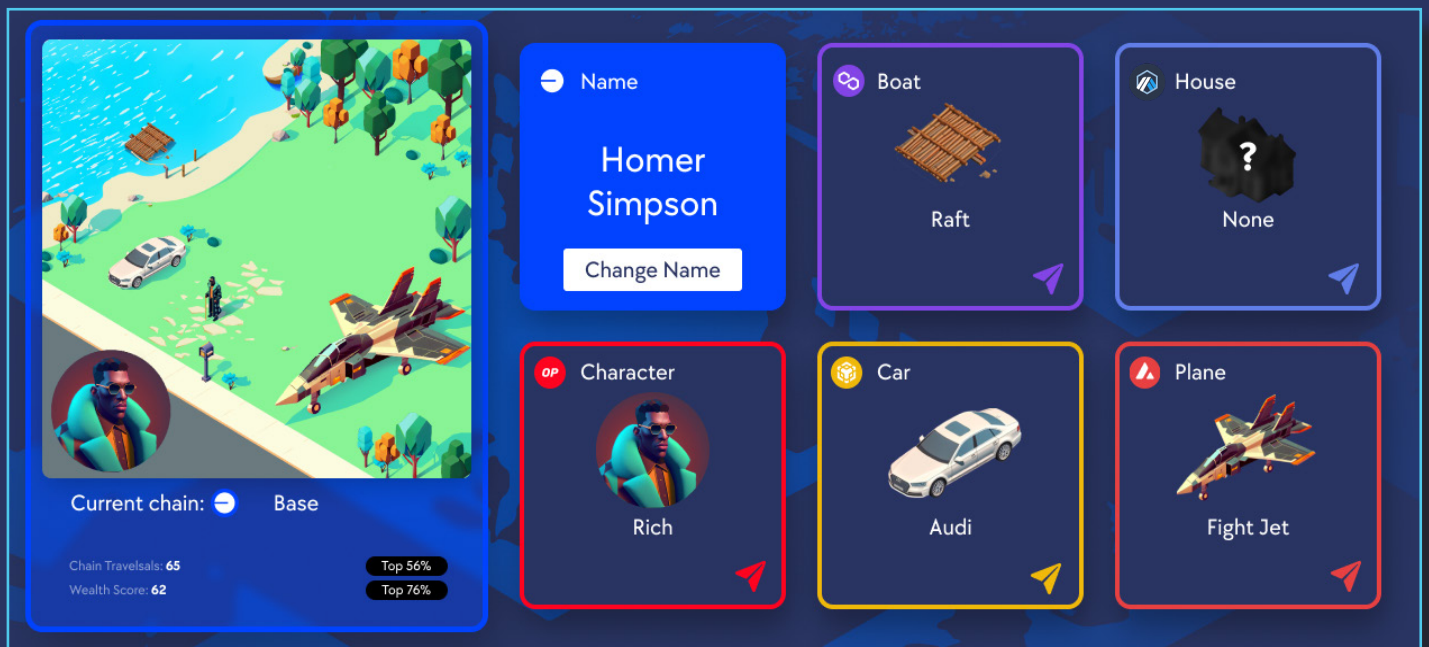

Material World NFTs are able to move across blockchains thanks to Chainlink's [Cross-Chain Interoperability Protocol](#) (CCIP).

CCIP allows for trustless communication between different blockchain networks, taking advantage of Chainlink's industry-leading decentralized oracle network (DON) to ensure the validity and secure delivery of messages across chains.

After minting your character, you can traverse it to other chains right from the Material World website.

Characters may traverse chains in any order to earn the respective asset.

Don't worry, travelers! When CCIP NFTs traverse chains, all of the metadata and attributes are retained, so you'll keep all of the assets you've accrued.

*Notes: Using this protocol does require a gas fee (calculated based on the destination chain's gas) paid for in the origin chain's token or in LINK.*

# REROLL

What would Material World be if you couldn't aspire to owning a better house or boat? If you don't like the asset your character received, you can traverse your character back to the appropriate chain and reroll for a nominal fee. Don't like your car? Go to Binance Smart Chain and get a new one. Think your clothes don't match your brand? Reroll on Optimism!

# RENAME

What if your belongings don't fit your name or you bought a CCIP NFT on a marketplace and want to make it your own? Fear not! In addition to rerolling your assets, you can also rename your character for a small fee after traveling back to Base.

# WEALTH SCORE

Every asset has a wealth score based on the monetary value and perceived worth of the item in our material world. The sum of all of your assets' scores gives your NFT its total wealth score. You can reroll assets to try and increase or decrease your wealth score.

*Note: Wealth score and rarity are NOT directly correlated. Some of the rarest items are the biggest pieces of junk.*

High  
wealth score

Medium  
wealth score

Low  
wealth score

# LEADERBOARDS

---

Material World will keep track of 3 leaderboards displayed to the public on the [materialworld.io](https://materialworld.io) website.

**Wealth Leaderboard:** The NFTs with the highest combined wealth scores

**Degen Leaderboard:** Completed NFTs (have all 5 assets) that have the lowest combined wealth scores

**Traveler Leaderboard:** The NFTs that have traversed chains the most number of times

# FUTURE CHAINS

---

We plan to add additional unlockable assets to these NFTs as more and more chains are supported by Chainlink CCIP.

MATERIAL WORLD IS POWERED BY
